EXPERIENCE

My portfolio showcases my skills as a front-end developer using React. It features a modern design with smooth animations and includes sections for my bio, education, skills, and projects. The projects section highlights my expertise in creating dynamic and interactive websites using React, including examples of responsive layouts, API implementation, and popular libraries and frameworks.

EDUCATION

Mechanical Engineering (B.Sc), Hochschule Rhein-Waal,

Kleve

Oct 2017 — Present

Meta Front-End Developer Professional Certificate, Coursera

Online

Sep 2022 — Feb 2023

- Proficient in front-end development with HTML5, CSS, and JavaScript
- Gained experience in building scalable and maintainable responsive web applications using React
- Learned how to interact with remote servers and fetch and post data via an API in React
- Learned principles of UX/UI design and research, including wireframing and prototyping using Figma.

IBM DevOps and Software Engineering Professional Certificate, Coursera

Online

Mar 2023 — Present

- Developed a DevOps mindset and practiced Agile philosophy and Scrum methodology.
- Created Python applications using various programming constructs and logic, including functions
- Built applications composed of microservices and deployed them using containers such as Docker, Kubernetes, and OpenShift, as well as serverless technologies.

SKILLS

- **Front-End Development:** Experienced in creating responsive designs and user-friendly interfaces using libraries and framework.
- **Version Control:** Experienced in implementing Version Control systems and creating and managing GitHub repositories using the command line.
- **Communication and Teamwork:** Possess excellent interpersonal skills, with the ability to communicate effectively and collaborate with cross-functional teams.
